

Brain Friendly Forms of Education for ADHD Learners

NEWSLETTER 3 July 2023

From the meeting

In the last days of June, the partners held a transnational meeting in Novo mesto. First, the President of the host organisation, Drustvo za razvijanje prostovoljnega dela Novo mesto, welcomed all partners and wished them a pleasant stay.

The 3rd meeting took place almost exactly one year after the first meeting in Poland. The partners took time to talk about all the activities that have been carried out since then and also about the activities that are coming up in the summer.

There will be no summer holidays for this partnership as they have a lot of tasks to do. The partners also set the deadlines for the next steps to be completed before the last meeting in Varna, Bulgaria.

After a year of work on PR1, we can say that it is almost finished. To finalize this result we just need to perform piloting with 40 participants, which will take place by the end of October and the results of which will then be summarised in a national and combined report. All the content of PR1 will be available for free on the Moodle platform.

The handbook, which is the main output of PR2, will be completed in the summer. This product will also be available to everyone free of charge.

Of course, the partners will not only be busy during the summer - translations, webinars and multiplier events are on the agenda in autumn.

More about the project and the results you can find right here:
